The 1st DASC Convention - A Hub of Science Innovation & Friendship

CONVENTION /kən'venʃn/

Derived from the Latin convenire meaning „to come together,“ a convention is an event where like-minded individuals gather to connect, share passions, and engage in related activities.

For six years, DASC has been uniting dentists, dental technicians, and dental hygienists through four exclusive events annually, redefining professional development in Switzerland with high-quality content presented in an inspiring, friendly atmosphere. Our community continues to grow, supported by strong industry partnerships that foster both knowledge sharing and networking.

On January 11, 2025, we will host the 1st DASC Convention at Zurich's Kraftwerk, extending an invitation to the entire dental community for a day of exchange and innovation.

The course includes participation in a workshop AND 3 speed dating sessions, or the participation in 6 speed dating sessions. Please select your preferred option or indicate if you do not wish to attend any workshops/speed dating sessions. As organizers, we will make every effort to accommodate your preferences, but we will confirm which sessions are definitively scheduled for you.
